SERVICE 01

GOSH CLARITY

Online Consultation

Focused professional guidance for one selected space, delivered remotely.

1

60-minute video consultation

A focused online meeting to understand your lifestyle, priorities, preferred style, current challenges and the result you want from the selected space.

2

Review of photos, measurements and current layout

Before the session, we study the photos, measurements and existing arrangement so our advice responds to the real dimensions, fixed elements and limitations.

3

Design direction and practical recommendations

We explain the most suitable design direction and give practical priorities for layout, finishes and purchases, so you know what to change first.

4

Color, lighting and furniture guidance

You receive coordinated guidance on color combinations, furniture scale and placement, lighting layers and key pieces that will create a balanced, comfortable room.

5

Written consultation summary

After the call, we provide a clear written recap of the agreed recommendations, priorities and next actions for you to follow during purchasing or execution.

Ideal when you need clear expert direction before making design or purchasing decisions. This service provides guidance rather than a complete drawing or 3D package.

SERVICE 02

GOSH VISION

Online Design Package

A detailed remote package combining consultation with clear visual design direction.

1

Initial online discovery meeting

We discuss how the space is used, who uses it, your style references, practical requirements and the overall result expected from the design package.

2

Review of measurements and floor plan

We review the client-supplied dimensions, openings, fixed elements and floor plan to confirm the usable area and identify any information needed before design begins.

3

Furniture layout proposal

You receive a proposed furniture arrangement showing recommended locations and approximate scale to improve circulation, functionality, comfort and visual balance.

4

Moodboard and coordinated color palette

A curated board brings together inspiration images, textures, materials and a coordinated palette, giving you one clear visual direction for the entire room.

5

Materials and finishes suggestions

We suggest suitable flooring, wall finishes, wood tones, fabrics, metals and other key materials that support the concept and are practical for the space.

6

Lighting and wall decor guidance

We recommend the main lighting layers, fixture styles, artwork, mirrors and wall treatments needed to complete the room without overdecorating it.

7

One 3D visual for the selected space

One realistic 3D view presents the main design idea, furniture arrangement, colors and finishes so you can understand how the selected space may look.

8

One revision round

After receiving your combined feedback, we make one reasonable revision to the agreed design elements while keeping the approved scope and concept.

Final deliverables are shared digitally. Accurate client-provided measurements are required, and the package covers one selected space and one agreed 3D view.

SERVICE 03

GOSH VISIT

On-Site Consultation

Direct professional guidance inside the property for immediate, practical decisions.

1

Scheduled site visit in Riyadh

A pre-arranged visit to the property in Riyadh, with the selected area and main questions confirmed before the appointment so the session stays focused.

2

Walk-through and assessment of the selected area

We walk through the space, observe natural light, fixed features, existing furniture and practical challenges, then identify the strongest opportunities for improvement.

3

Review of layout, circulation and proportions

We evaluate circulation paths, furniture sizes, empty areas, focal points and proportions to explain what should remain, move, be reduced or added.

4

Recommendations for furniture, colors and lighting

During the visit, we recommend suitable furniture types, color combinations and lighting improvements based on the room's real dimensions and existing conditions.

5

Answers to design questions during the visit

You can discuss specific doubts about layout, finishes, purchases or styling and receive direct guidance while we are physically viewing the space.

6

Brief written recommendations after the visit

Following the visit, you receive a concise written recap of the key decisions and recommended next steps; it is guidance, not a full drawing package.

Visit duration, selected areas and travel coverage are confirmed before booking. Detailed drawings, moodboards and 3D visuals are not included in this consultation.

SERVICE 04

GOSH CONCEPT

On-Site Design Package

A structured site-based consultation supported by a complete visual concept.

1

On-site discovery and measurements review

We meet at the property to understand your needs, review the selected area and check the supplied measurements, openings and fixed architectural elements.

2

Space planning and furniture layout

A planned furniture layout organizes the room around movement, comfort, daily activities and correct furniture scale, giving you a clear basis for purchasing.

3

Moodboard and color palette

A curated moodboard defines the overall aesthetic through reference images, materials, textures and a coordinated color palette that connects all design elements.

4

Materials, finishes and lighting recommendations

We recommend key surfaces, fabrics, finishes, lighting types and fixture styles that suit the concept, function and atmosphere of the selected space.

5

Wall decor and styling direction

We outline suitable artwork, mirrors, feature walls, curtains and decorative details, including how they should relate to the furniture and room proportions.

6

Shopping and sourcing suggestions

You receive suggested furniture and decor categories, reference products or sourcing directions to make shopping more focused and consistent with the approved concept.

7

One 3D visual for the selected space

One realistic 3D view combines the proposed layout, palette, finishes and key furniture, helping you visualize the main direction before purchasing or execution.

8

One revision round

One consolidated revision is included for reasonable adjustments to the initial proposal, based on your feedback and within the original selected-space scope.

Suitable when you want a clear, site-informed design direction before purchases or execution begin. Construction drawings and implementation supervision are separate services.

SERVICE 05

GOSH REFRESH

Decor & Styling

A curated transformation using styling, color, textiles and selected furniture updates.

1

Existing-space assessment

We assess the existing room, furniture and decorative pieces to decide what can be retained, relocated, refreshed, reupholstered or replaced for the best impact.

2

Style concept and coordinated palette

A refreshed concept and coordinated palette give the space a clearer identity while respecting the items you wish to keep and the atmosphere you prefer.

3

Furniture rearrangement and styling plan

We propose how to reposition and combine existing furniture, and identify essential additions, to improve circulation, balance and the way the room is used.

4

Curtains, rugs, cushions and textile selection

We coordinate curtains, rugs, cushions and other textiles by color, scale, texture and practicality so the room feels layered, comfortable and visually connected.

5

Wall decor and artwork recommendations

We recommend appropriate artwork, mirrors and wall decor, including suitable scale and placement, to fill empty walls and strengthen the room's focal points.

6

Lighting and decorative enhancement

We suggest decorative lamps and ambient lighting improvements that add warmth, highlight important areas and support the refreshed mood without major electrical work.

7

Shopping list and sourcing guidance

You receive a focused shopping list or sourcing direction for the agreed items, helping you purchase pieces that match the concept, dimensions and priorities.

8

Final on-site styling when selected

When included in the agreed scope, we visit after delivery to arrange furniture, textiles and decor so the completed room looks balanced and professionally styled.

This service refreshes an existing space. Major construction, custom technical drawings, product costs, delivery and installation are quoted separately when required.

SERVICE 06

GOSH FINAL TOUCH

Accessories & Styling

Thoughtfully selected decorative layers that complete the space and express its identity.

1

Accessories concept and styling direction

We define the decorative story, level of styling and accessory categories needed for the room, based on its furniture, colors, proportions and overall character.

2

Selection of vases, objects, books and trays

We curate vases, sculptural objects, books, trays and small decor in suitable sizes, finishes and quantities, avoiding clutter and unnecessary repetition.

3

Artwork, mirrors and wall accessory guidance

We recommend artwork, mirrors and wall accessories that suit the available wall dimensions, viewing height and surrounding furniture, creating balance and a clear focal point.

4

Cushion, throw and soft furnishing coordination

We coordinate cushions, throws and soft accessories through complementary colors, patterns and textures so they connect the furniture and soften the overall look.

5

Tabletop and shelf styling

We create balanced arrangements for coffee tables, dining tables, consoles, side tables and shelves, considering height, spacing, function and visual rhythm.

6

Supplier and shopping recommendations

You receive recommended suppliers, products or purchasing directions that match the approved style, quality level and agreed scope; product availability may vary.

7

Delivery coordination where applicable

Where included, we help organize supplier delivery details for the selected accessories; product costs, shipping, installation and supplier terms remain separate.

8

Final accessory placement service

Once the items arrive, we place and style them professionally, adjusting groupings and positions so every surface feels intentional, polished and ready to use.

Product costs, delivery fees, installation charges and supplier terms are excluded unless specifically included in the quotation. Final placement is provided only when selected.

SERVICE 07

GOSH SIGNATURE

Design & Implementation

A complete design journey from concept development through execution and final styling.

1

Client brief and site assessment

We begin with a detailed briefing and site assessment covering lifestyle, functional needs, design preferences, project priorities, existing conditions and the areas included in scope.

2

Concept, moodboard and color direction

We develop the main creative concept through inspiration, materials, textures and a coordinated color direction, establishing the visual identity that guides all later decisions.

3

Furniture layout and space planning

We create a space plan showing furniture locations and circulation, considering room dimensions, activity zones, comfort, scale and the relationship between connected areas.

4

3D design visuals

Realistic 3D visuals communicate the proposed atmosphere, furniture, colors, materials and key architectural details, allowing you to understand the design before execution.

5

Lighting, ceiling and finishes plans

We prepare the agreed plans for lighting positions, ceiling features and finish locations so contractors can understand the design intent and coordinate the required work.

6

Custom joinery and key 2D drawings

Detailed 2D drawings are developed for agreed custom elements such as wardrobes, TV units, vanities or built-in storage, showing dimensions and main design details.

7

Materials and furniture specifications

We organize approved material, finish, furniture, lighting and fixture selections into clear specifications to guide quotations, procurement and implementation decisions.

8

Supplier and contractor coordination

We communicate design requirements with selected suppliers and contractors, review relevant samples or proposals and help keep their work aligned with the approved concept.

9

Site follow-up and design supervision

During agreed site visits, we review visible progress, identify design deviations and clarify design details; supervision frequency and responsibilities are defined in the proposal.

10

Installation, furnishing and final styling

We coordinate the final installation sequence, furniture placement and styling of approved items so the completed space reflects the intended design as closely as possible.

The exact scope, deliverables, number of visuals and drawings, timeline, supervision frequency, procurement responsibilities and implementation budget are defined in the project proposal.

CHOOSE THE RIGHT SERVICE

A simple guide to the service that matches your project stage.
